 - RSA encryption in line with the highest security standards

→ free
  - Using the app is free of charge

Available on the App Store

Available on the Android App Store

3 easy steps to start

- **download**

  the ViCA application from Android or Apple AppStore

- **call**

  K&H Corporate Customer Service at

  06-40-200-069 for registration

- **start**

  ViCA application on your smartphone
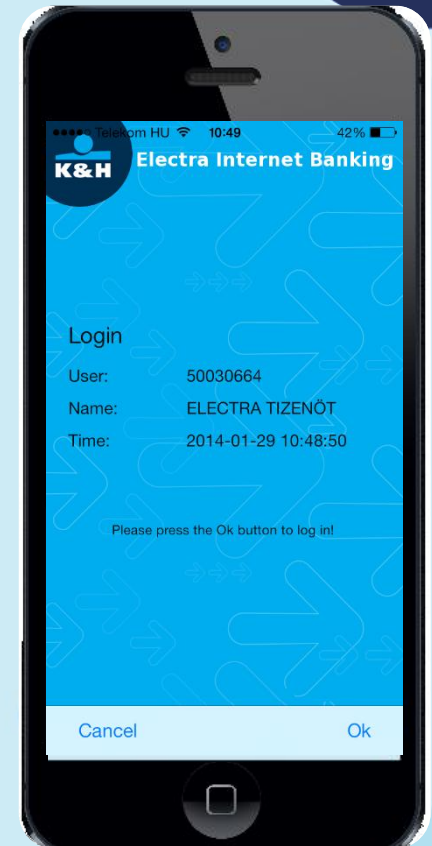

when you first use ViCA

→ **set your ViCA password**
- This will be your personal password to access the application
- You will receive an SMS containing your application ID and registration code

→ **register**
- Click on "Register" button in ViCA and enter the application ID and registration code you just received
- You will receive a new SMS containing a verification code to complete the registration

→ **enter the verification code**
- If the code is correct, your registration is completed

using ViCA for web Electra login

→ **start login to WEB Electra**
- click "Login with VICA" buton

→ **start ViCA application on your smartphone**
- enter your password

→ **authentication completed**
- after successful authentication, Electra will be available automatically. You can start working.

using ViCA to sign transactions

→ initiate transaction in K&H web Electra
- instead of entering "Signature code", start ViCA app on your smartphone

→ view the details
- ViCA automatically shows the transaction details prior to the signature (account no., transaction amount)

→ sign the transaction
- your digital signature is completed, the package is ready for submission
